

BUILT TO PERFORM

ZYARA 440

INTRODUCING THE **Z/YR 440**

A DAY YACHT. A PERFORMANCE MINDSET.

The ZYARA 440 brings a new expression to SKIPPER's performance DNA. A distinctive profile, an open walkaround deck and inviting interiors set the scene for life on board.

From time shared at anchor to the pleasure of taking the helm, it brings together the freedom of a day yacht and the driving spirit of SKIPPER.

ZYARA 440

ZYARA 440

MAKE A NIGHT OF IT.

REFINED TO THE
LAST DETAIL.

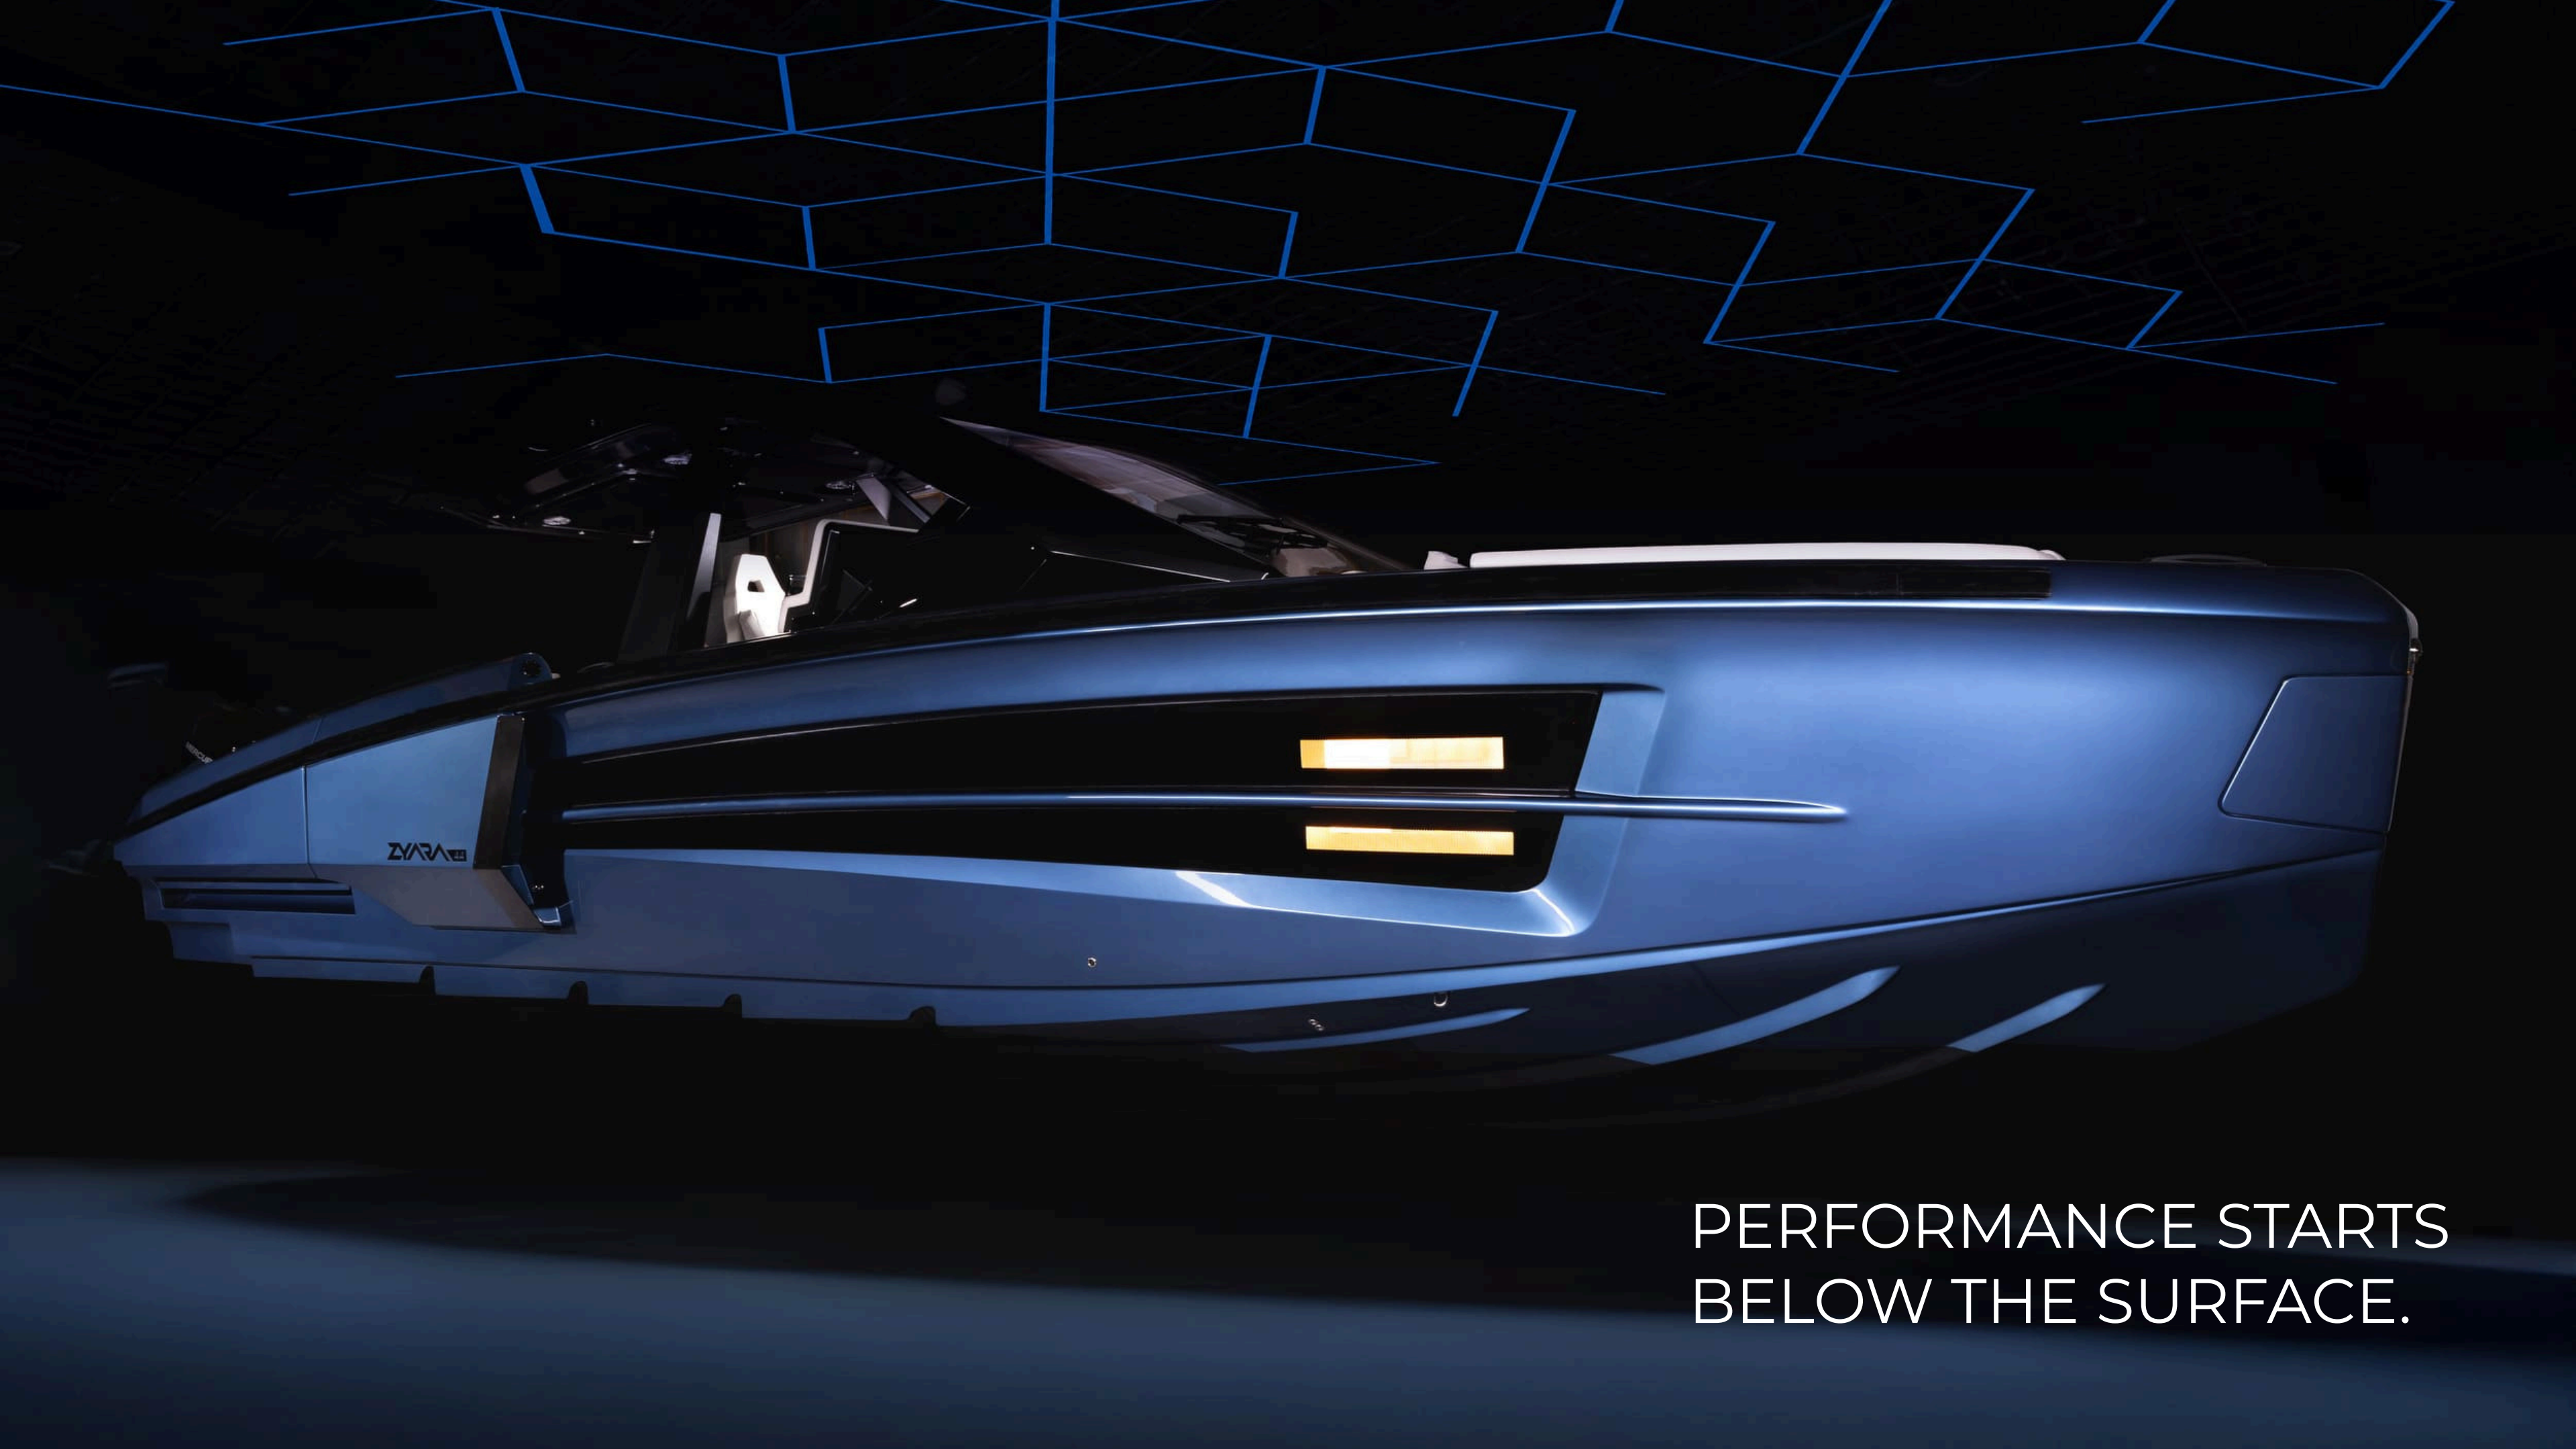

THE ZYARA SIGNATURE.

DISTINCTIVE AT
EVERY ANGLE.

PERFORMANCE STARTS
BELOW THE SURFACE.

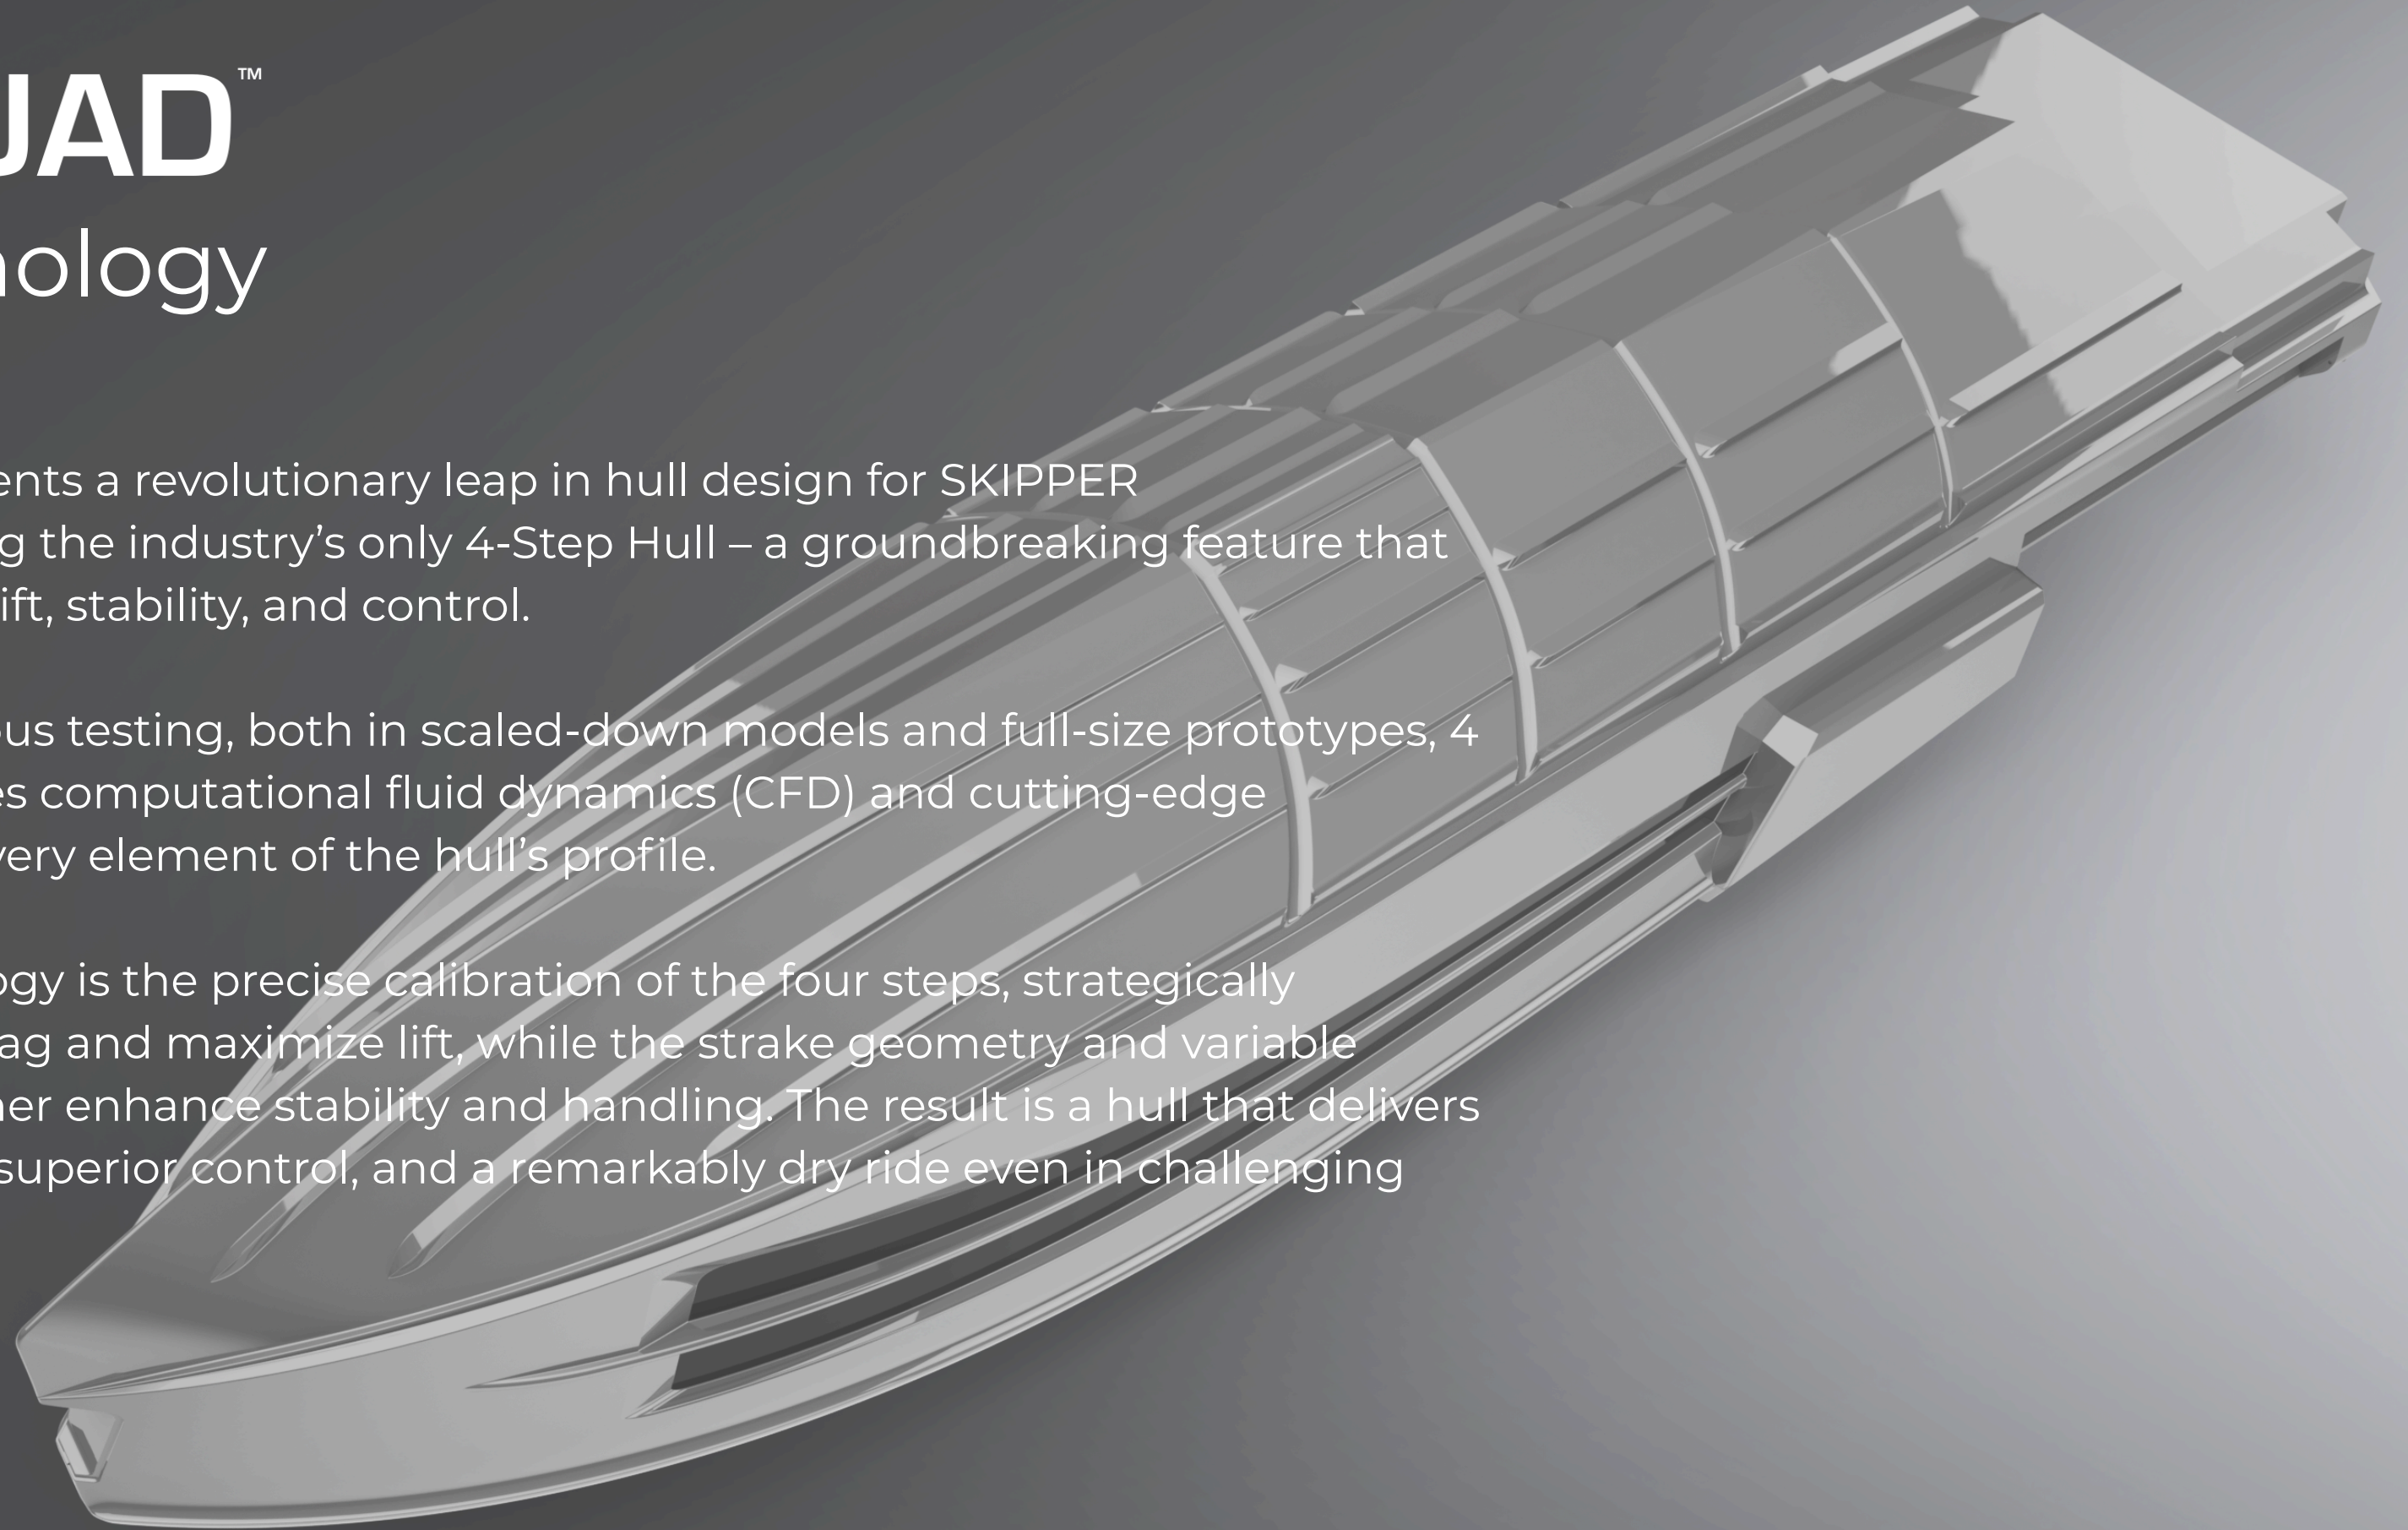

AEROQUAD™

4 Step Technology

4 Step Technology represents a revolutionary leap in hull design for SKIPPER POWERBOATS, integrating the industry's only 4-Step Hull – a groundbreaking feature that optimizes hydrodynamic lift, stability, and control.

Developed through rigorous testing, both in scaled-down models and full-size prototypes, 4 Step Technology harnesses computational fluid dynamics (CFD) and cutting-edge algorithms to fine-tune every element of the hull's profile.

Central to 4 Step Technology is the precise calibration of the four steps, strategically positioned to minimize drag and maximize lift, while the strake geometry and variable deadrise distribution further enhance stability and handling. The result is a hull that delivers exhilarating acceleration, superior control, and a remarkably dry ride even in challenging offshore conditions.

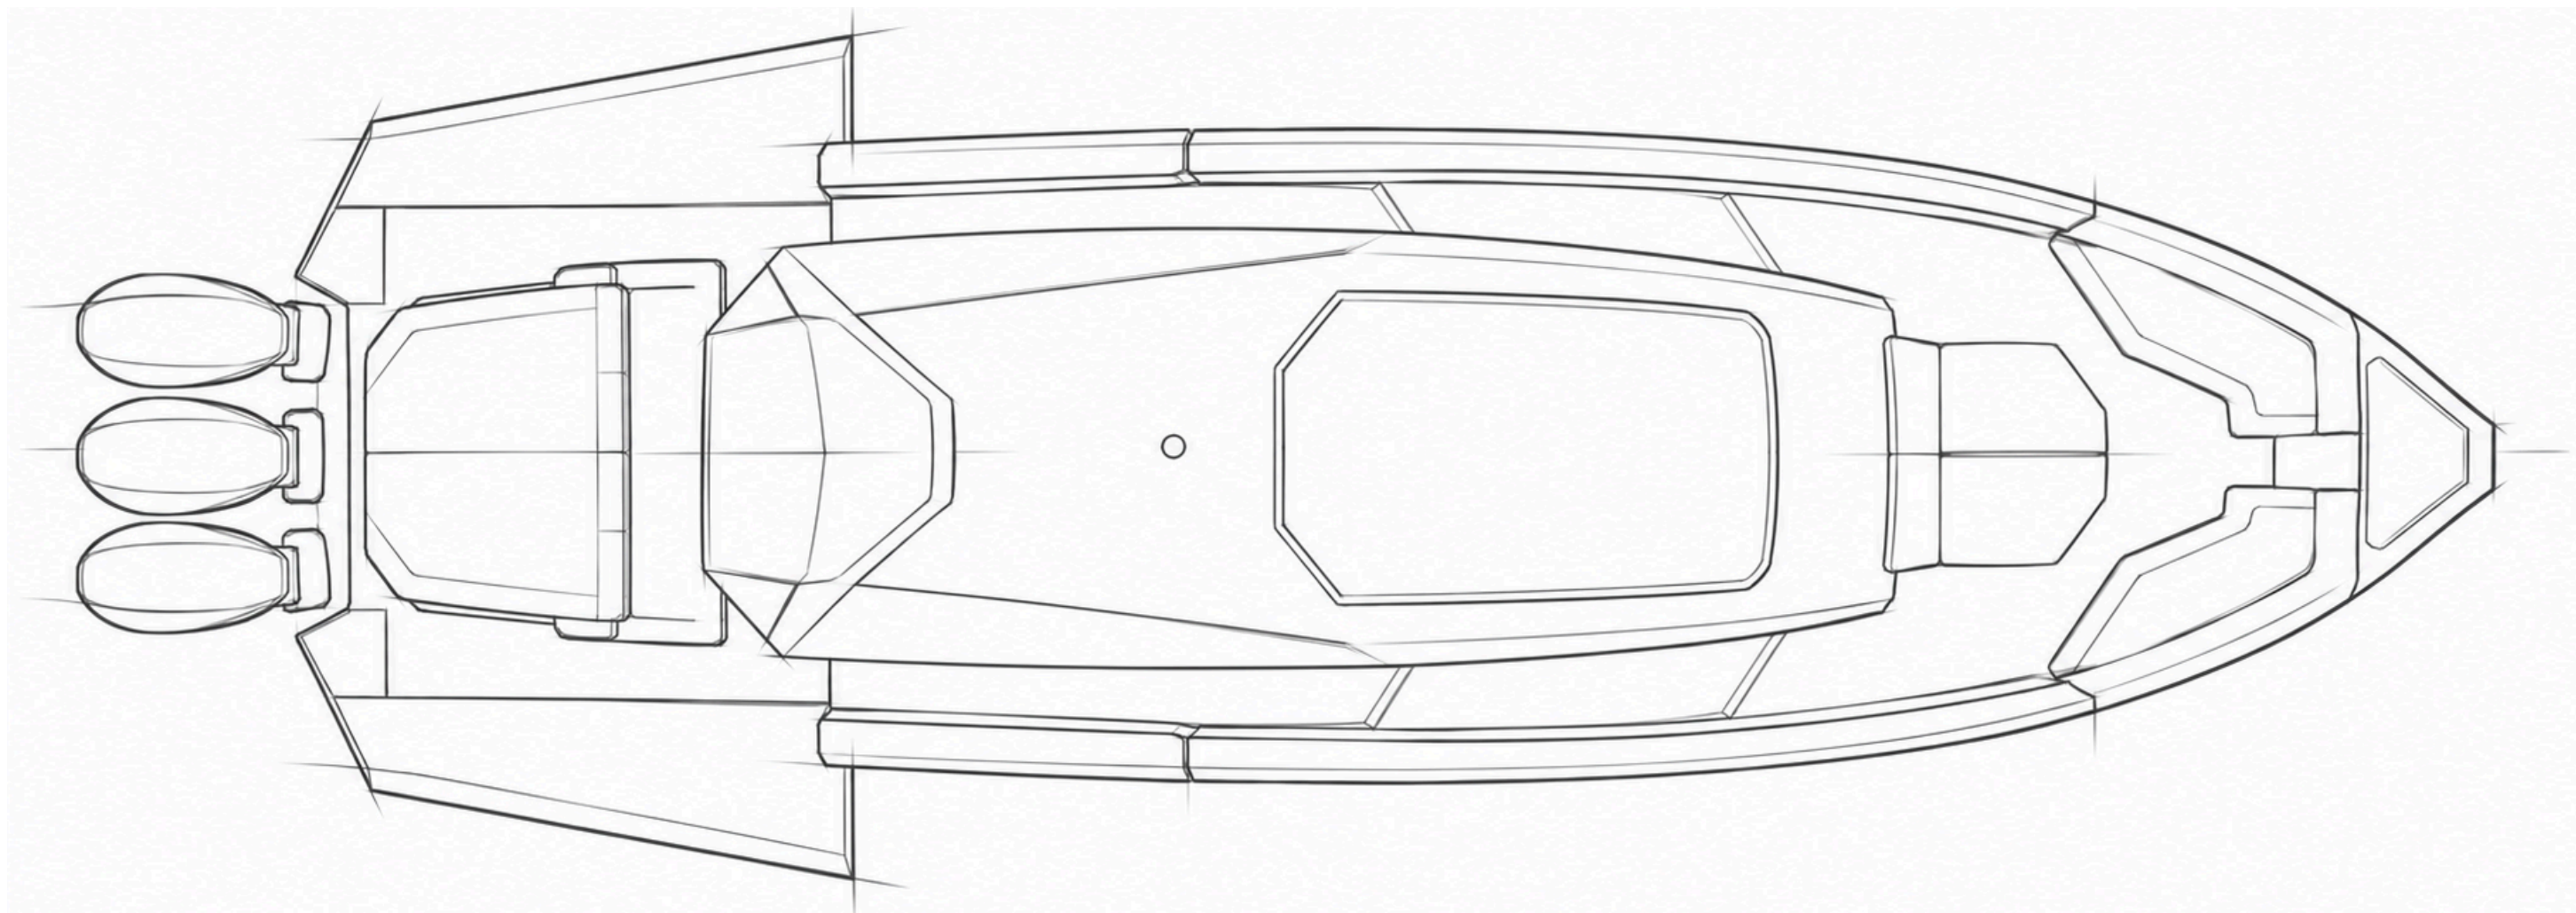

COMFORT BELOW DECK.

The **ZYARA 440** carries its distinctive design language below deck, where warm wood finishes, soft upholstery and ambient lighting create a welcoming interior.

A forward double berth, lounge seating and a separate bathroom bring comfort to time spent on board, from a quiet afternoon retreat to an overnight stay.

Clean-lined cabinetry and a coordinated palette give the spaces a calm, contemporary character, with careful attention to the details you see and touch.

ROOM TO ENJOY THE DAY.

The walkaround layout connects the forward seating area with the aft lounge and sunpad. Distinct spaces allow guests to gather, stretch out or enjoy a quieter moment, while keeping movement around the deck simple and direct.

OPEN UP TO THE WATER.

At anchor, the fold-down side terraces extend the aft deck, creating more room beside the sunpad and a closer connection to the sea. A setting for a swim, a conversation or an unhurried afternoon by the water.

TECHNICAL SPECIFICATIONS

- OVERALL LENGTH

13.40 m | 44 ft
- HULL LENGTH

11.73 m | 38.50 ft
- WEIGHT (DRY)

10.500 kg approx. | 23.150 lb
- DISPLACEMENT

12.35 t approx. | 27.300 lb
- BEAM

3.73 m | 12.24 ft
- MAX BEAM

5.00 m | 16.40 ft (extended terraces)
- DRAFT MAX

1.15 m | 3.77 ft
- FUEL CAPACITY

1.200 lt | 317 US gal
- WATER TANK

325 lt | 86 US gal
- GUEST

12 (Category B)
- ENGINES

2x VOLVO PENTA D6 480HP DPI DRIVES

2x MERCURY 600HP V12

3x YAMAHA XTO 450HP V8
- MAX SPEED

50 kn
